Sample pivot — status × priority with heatmap

What you get with Pro.

● Drill-down

Click a cell to see and open the matching notes.

● Heatmap

Conditional formatting that makes outliers obvious.

● Percentages

Show values as % of total, % of row or % of column.

● Advanced aggregations

Average, min, max, median, distinct count.

● CSV + Excel export

Styled XLSX preserves header, heatmap and totals.

● Future Pro included

Multi-dim rows/cols and PNG export are next, free.
